ADDENDUM #5

RFQ 22-41-1514

**Fowler WRF Return Flow to Lake Lanier
Engineering and Design Services
American Rescue Plan Act-State Fiscal Recovery Fund
Water and Sewer Infrastructure
Grant GA-000846**

For: Request for Qualifications for engineering and design services of the Fowler WRF Return Flow to Lake Lanier project.

This addendum supersedes and supplements all portions of the RFQ documents and becomes part of the solicitation documents for the above-referenced project.

Where any item called for in the scope of work is supplemented hereby, the original requirements shall remain in effect.

Where any original item is amended, voided, or superseded hereby, the provision of such item not so specifically amended, voided, or superseded shall remain in effect.

Questions/Answer:

- 1) Page 10 states, “Resumes of project managers and all design team members for this project.” Are resumes requested for all team members listed on the organizational chart or for key staff members only? This could be numerous resumes across all three pieces of the project. **Answer:** Resumes are required for key staff members, such as managers and discipline leads.

- 2) Page 13 states, “Easement Acquisition: To be completed by Others” but page 14 states, “Firms able to offer easement acquisition support should include information in their Qualification package.” Could you please clarify the requested requirement for easements? **Answer:** Easement acquisition will be a joint process completed with both County and outside support to be defined. Firms that have experience/capabilities related to easement acquisition should provide as part of their statement of qualifications, however, it is not a requirement for design firm shortlisting or final selection.

- 3) Are all forms only required for the prime consultant? **Answer:** The required forms shall be completed by the prime consultant and subconsultants.
