

Forsyth County Procurement

Tyra Little, Procurement Agent III

September 22, 2021

ADDENDUM #3

RFP 21-129-1620

Commissioning Authority Services

For: Forsyth County is soliciting proposals from highly qualified firms to provide commissioning services for two (2) Fire Stations. Fire Station Number 9 & Fire Station Number 15.

This addendum supersedes and supplements all portions of the quote documents and becomes part of the quote documents for the above-referenced project.

Where any item called for in the specifications or indicated on the drawings is supplemented hereby, the original requirements shall remain in effect.

Where any original item is amended, voided, or superseded hereby, the provision of such item not so specifically amended, voided, or superseded shall remain in effect.

Question/Answers (*Italics*)

1. Are there specifications for the job as of yet? The RFP wants the Cx agent to help the designer/architect develop the OPR/BOD and develop Cx specs. However, Fire Station 9 looks like its in Bid phase of the project and the design is completed for that. ***FS #9 is not going out to bid until FS#15 completes permit review. FS#15 Has not been submitted for permit review at this time. FS#9 & #15 design and specs will be revised as needed per the outcome of commissioning, inclusive of resubmittals for permit review, if required. FS#9 & #15 will be awarded and constructed under one general contractor and constructed simultaneously on the two sites.***
2. The drawings reference FS-9 all the way up to the Electrical drawings, then it switches to FS-11, FS-11 is not mentioned in the RFP. ***FS-11 is not part of the RFP, the section from FS11 is provided for reference, in principle, of what will be incorporated into FS#9 & #15.***
3. Are there drawings available for FS-15 at this time. ***No***
